

NJ TRANSIT ATLANTIC RAIL SURVEY

January 2013

Background

- ◆ An Atlantic City Rail Survey was conducted in April, 2006 by the NJ TRANSIT Research Team.
- ◆ Starting in late 2006, new casinos have opened in adjacent states, resulting in a loss of more than 30% of visitors and casino revenue, and a drop in casino employment.
- ◆ A new casino opened in May 2012.
- ◆ A new Pennsauken Transfer station on the Atlantic City Rail line is under construction.

Research Objectives

- ◆ Identify travel patterns of customers on the Atlantic City Rail line
- ◆ Provide information to SJTA and SJTPO on travel patterns for business development purposes
- ◆ Obtain weekend travel patterns
- ◆ Estimate dollars spent on recreational travel to be shared with Casino Redevelopment Authority (CRDA)
- ◆ Update the ridership forecast model for weekdays

Research Methodology

- ◆ NJ TRANSIT worked with DVRPC and SJTPO to develop an On-Board Survey of Atlantic Rail Line
- ◆ Surveys were distributed on-board for all trips to Atlantic City between 5:30AM and 8:00PM on Friday September 21 and Saturday, September 22
- ◆ NJ TRANSIT, DVRPC, and SJTPO employees administered and collected surveys
- ◆ Overall, 1,165 surveys were collected out of a total ridership of 3,280 for a response rate of 36% over a two day period.
- ◆ Data weighted by train to reflect ridership of trains surveyed

Ridership and Response Rate by Train-Friday

Train #	Departure PA	Ridership	Response	Response Rate

Conclusions

- ◆ Excellent response rate of 36% can be attributed to the employees from DVRPC, SJTPO & NJTRANSIT who volunteered their weekend to administer the survey on board trains
- ◆ On Friday, the majority of customers are coming from 30th St/Philadelphia (43%) or Lindenwold (28%) and travelling to Atlantic City (64%). On Saturday, customers are coming from 30th St/Philadelphia (41%), Cherry Hill (20%) or Lindenwold (24%) and going to Atlantic City (81%).
- ◆ Access modes of customers travelling on Friday were similar to those on Saturday. Thirty-one percent (31%) used public transit (Bus, PATCO, SEPTA, or Amtrak) on Friday vs. 29% on Saturday. Forty-six percent (46%) Drove & Parked or were Dropped Off on Friday vs. 51% on Saturday.

Conclusions – Continued

- ◆ A greater percentage of customers travelling on Saturday (25%) walked after getting off the train vs. Friday (14%) and a greater percentage used Jitney (34%) after getting off the train than on Saturday (29%). Saturday ridership is more Atlantic City oriented and has less Philadelphia commuters.
- ◆ On Friday, a greater percentage of customers were frequent riders using the train 4 days per week or more (42%) vs. Saturday (15%)
- ◆ Twenty-three percent (23%) of customers used a monthly ticket on Friday vs. only six (6%) on Saturday.
- ◆ Only five percent (5%) of Atlantic City customer received a reimbursement of their travel on Friday and the percentage decreased to three percent (3%) on Saturday.

Conclusions – Continued

- ◆ Rider captivity among Friday and Saturday customers are similar with sixty-three percent (63%) reporting a vehicle available for their trip.
- ◆ The most frequently cited destination on Friday was Work (44%) and on Saturday was Recreation (63%).
- ◆ High customer satisfaction scores were achieved (7.8) in the current survey and an overwhelming majority (over 80%) were either *Very Likely* or *Somewhat Likely* to recommend NJ TRANSIT's Atlantic City Rail Service to a friend or relative.
- ◆ The typical Atlantic City customer riding on Friday is a white male or female in their mid-forties with an approximate average household income of \$61,000/year employed in a management, service or sales/retail capacity.

Conclusions – Continued

- ◆ Nearly forty percent (39%) of customers travelling on Friday were going to a casino vs. Saturday where slightly more than half (53%) were travelling to a casino.
- ◆ Casino customers travelling on Friday reported an spending average of \$630 on gambling and other trip expenses vs. \$550 spent by customers travelling on Saturday.
- ◆ Customers travelling to casinos on Saturday were more likely to stay one day (65%) vs. Friday (56%).
- ◆ Customers are interregional travelers as demonstrated by five percent (5%) of customers travelling three plus hours and using Amtrak (5%) on Friday and Saturday.
