D. Anticipated Consultant Selection Schedule

End of Question/Answer Period – Friday, March 9, 2012

Proposal Due Date – Thursday, March 15, 2012

Policy Board Action – Monday, March 26, 2012

Notice to Proceed – On or about Monday, April 5, 2012

E. Contracting

A contract with the SJTPO will be executed via the South Jersey Transportation Authority (SJTA), the administrative host of the SJTPO. Submission of a proposal indicates the submitter agrees with the general form of the SJTA Subcontract as seen SJTPO website. All provisions and requirements of the SJTA pertaining to contractual matters will be in effect. This project is funded by the Federal Highway Administration and the Federal Transit Administration of the United States Department of Transportation.

II. SCOPE OF WORK

A. Background

Safety is a top priority in SJTPO's plans and programs. Along with the South Jersey Traffic Safety Alliance (SJ TSA), SJTPO is actively engaged in several safety-related initiatives, such as Safety Conscious Planning and Road Safety Audits. This project involves conducting a Seat Belt Survey at selected sites throughout the region, in cooperation with the SJ TSA.

In the past, this survey was based on the "National Occupant Protection Use Survey" (NOPUS), <http://www-nrd.nhtsa.dot.gov/Pubs/811036.PDF> and was meant to be "snapshot" of seat belt usage on the road.

For FY 2012, the SJ TSA has divided the project into two parts. Part 1 included observations at 9 over 55 communities and 22 high schools for specific seat belt use by age and was completed in the Fall of 2011.

Part 2 is designed to identify backseat seat belt use and child restraint use. These observations will take place at the entrance of athletic fields timed for the start of soccer games when families and cars full of young players will be arriving.

During the FY2011 survey the Alliance partnered with local police departments during click it and ticket to observe back seat and child restraint use. However, not all locations were conducive for observing backseat and child restraint use. Close proximity to the vehicle is vital. Back windows in the down position preferred. Thus, observations during the Spring weather make the latter possible.

The FY2011 study indicated a 72% backseat seat belt use and 89% child restraint use. However, the Alliance does not believe the child restraint use number is correct, in that it does not separate children by age group and child restraint type, specifically booster seat use for children 5 to 8 years old. Thus, interaction with the vehicles may be necessary and thus prior approval by the municipality or athletic association. The Alliance will work with the consultant to obtain those authorizations.

All previous years reports can be found on the Alliance's website, www.SJTSA.org.

B. Content

The objectives of Part 2 of the SJTSA 2012 Seat Belt Survey are to:

1. Compare backseat seat belt use to prior year use rate of 72%.
2. Determine backseat seat belt use by age and gender, (8 to 12), (12 to 18) and over 18.
3. Determine child restraint use by age, rear facing infants (typically birth to 1 year), forward facing 5 point harness restraint use (typically 1 to 4 years of age) and booster seat use (children 5 to 8).

The Alliance has asked for approval from the South Jersey Soccer League (SJSJL) to do observations at local games. The SJSJL involves kids aged 8 to 18. Games are Saturday and Sunday afternoons. Exhibit D and E identify the games that include teams from our region and highlight those that have chosen to be surveyed.

Field exits have been looked at using Google Earth and notations have been made on the Exhibits about the number of exits. More information is being gathered about some fields and that information will be provided to the firms notifying SJTSA that will be submitting a proposal and placed on the SJTPO's website along with any other questions and answers.

Observers are required to be at each field at least 30 minutes prior to meeting start times.

LATE PROPOSALS WILL NOT BE EVALUATED.

The submission should be stapled or bound with no loose pages. The following criteria have been established to guide the evaluation of each consultant proposal with each criterion weighted as indicated below. The proposal must contain the following information:

- 2. Firm Qualifications** (Criterion weight: 25 percent): Qualifications of the firm and any subcontractors:
 - a. A list of similar work, including the name and telephone number of the clients, and a full description of the services provided by the firm. An organizational chart and description of the firm.

This section must identify any proposed DBE/ESBE firms and the proposed percentage participation in the total contract. Do not site a dollar amount, as that must be provided in the separate Fee Proposal. **SJTPO utilizes the most recent NJDOT federally approved DBE/ESBE goal (for FY 2012) which is 15.61 percent.**

The highest ranking firms may be invited, at the option of SJTPO, to an interview to present relevant details of their proposals and introduce key staff.

B. Cost Proposal

The Technical Proposals must be accompanied by one (1) hard copy and one (1) electronic copy of the Cost Proposal in a separate, sealed envelope. The cost proposals must include a price and level of effort for the Scope of Work. All other charges, such as fringe benefit, overhead, profit, etc., must be identified, yielding a total project cost. Please also include a list of key personnel arranged by title and level with hourly rates.

If an acceptable contract cannot be negotiated with the selected firm, negotiations will be terminated and SJTPO will initiate discussions with the second ranked firm. The consultant selection and negotiated contract are subject to approval by the U.S. Department of Transportation in accordance with its policies and procedures. The dollar and percentage participation of DBE/ESBE firms must be separately itemized in the cost proposal.

IV. DISADVANTAGED BUSINESS ENTERPRISE (DBE) AND EMERGING SMALL BUSINESS PARTICIPATION (ESBE)

A. General

Regulations of the Department of Transportation relative to Non-Discrimination in Federally assisted projects of the Department of Transportation (49 CFR Part 21), is made part of the Agreement. In order to ensure The State of New Jersey Department of Transportation (NJDOT) achieves its federally mandated statewide DBE goal, SJTPO encourages the participation of Disadvantaged Business Enterprise (DBE) or Emerging Small Business Enterprise (ESBE), as defined below, in the performance of consultant contracts financed in whole or in part with federal funds.

A Disadvantaged Business Enterprise (DBE) is defined in 49 CFR Part 26, as "a small business concern (from Section 3 of the Small Business Act), which is:

1. At least 51 percent owned by one or more 'socially and economically disadvantaged' individuals, or in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more 'socially and economically disadvantaged' individuals; and
2. Whose management and daily business operations are controlled by one or more of the 'socially and economically disadvantaged' individuals who own it.

"Socially and economically disadvantaged" is defined as individuals who are citizens of the United States (or lawfully permanent residents) and who are: "Black Americans," "Hispanic Americans", "Native Americans," "Asian-Pacific Americans", "Asian-Indian Americans", "Women" (regardless of race, ethnicity, or origin); or "Other" disadvantaged pursuant to Section 8 of the Small Business Act).

Emerging Small Business Enterprise: The Emerging Small Business Enterprise (ESBE) referred to herein is defined as a firm that has met the following criteria and obtained small business certification as an ESBE by The State of New Jersey Department of Transportation:

1. A firm must meet the criteria for a small business as defined by the Small Business Administration in 13 CFR Part 121, which includes annual receipts from all revenues, including affiliate receipts which equates to the annual arithmetic average over the last 3 completed tax years, or by the number of employees.
2. The small business must be owned by individuals who do not exceed the personal net worth criteria established in 49 CFR Part 26 which is \$750,000. All appropriately certified DBEs fall into this definition due to their size.

B. Policy

The CONTRACTOR agrees that DBE/ESBE firms shall have the maximum opportunity to participate in the performance of contracts and subcontracts financed in whole or in part with Federal funds provided under this Agreement, the CONTRACTOR and its subcontractors shall not discriminate on the basis of race, color, national origin or sex in the award and performance of USDOT-assisted contracts in accordance with 49 CFR Part 21. DBE requirements of 49 CFR Part 23 applies to this agreement. The SJTPO strongly encourages the use of DBE/ESBEs in all of its contractual efforts.

C. Certified DBE/ESBE Firms

A list of certified ESBE firms is compiled and is effective for contracts on a per calendar year basis. The current list of certified ESBE firms is available on the website of the New Jersey Department of Transportation (<http://www.state.nj.us/transportation/business/civilrights/dbe.shtm>). Firms who wish to be considered for DBE/ESBE certification are encouraged to contact the NJDOT Office of Civil Rights directly for information on the certification process. Once a firm is certified, the federal portion of the dollar value of the contract or subcontract awarded to the DBE/ESBE is generally counted toward the applicable DBE/ESBE goal. If state matching and/or non-matching funds are also awarded to an DBE/ESBE, the total dollar value of the DBE/ESBE contract or subcontract may also be counted toward the applicable DBE/ESBE goal.

D. Consultant Documentation

If applicable, the Consultant must demonstrate sufficient reasonable efforts to meet the DBE/ESBE contract goals. Additionally, SJTPO has a long-standing commitment to maximize business opportunities available to disadvantaged and DBE/ESBE firms. The consultant's contract is subject to all federal, state, and local laws, rules, and regulations, including but not limited to, non-discrimination in employment and affirmative action for equal employment opportunity. The consultant's contract obligates the consultant to aggressively pursue DBE/ESBEs for participation in the performance of contracts and subcontracts financed in whole or in part with Federal funds. The consultant cannot discriminate on the basis of race, color, national origin, or sex in the award and performance of federally assisted contracts. The consultant contract specifies the DBE/ESBE goal and the DBE/ESBE participation rate for that contract, if applicable. The prime consultant contract must document, in writing, all of the steps that led to any selection of the DBE/ESBE firm(s). Prior to the award of a consultant contract, the consultant must demonstrate sufficient reasonable efforts to utilize DBE/ESBE firms. **SJTPO utilizes the most recent NJDOT federally approved DBE/ESBE goal (for FY 2012) which is 15.61 percent.**

If, at any time you intend to subcontract or modify any portion of the work already under contract, or intend to purchase material or lease equipment not contemplated during the original preparation of your cost proposal, you must notify SJTPO in writing. If, as a result of any subcontract, modification, purchase order, or lease, the actual DBE/ESBE or participation rate for the consultant's contract is in danger of falling below the agreed upon DBE/ESBE participation, then a request must be made for an DBE/ESBE Goal Exemption Modification through SJTPO.
