I. INTRODUCTION**A. General**

The South Jersey Transportation Planning Organization (SJTPO) is soliciting proposals from qualified firms, or groups of firms, to develop a post-processor to link the outputs of SJTPO's travel demand model to the latest version of MOVES.

This work will be included as a two-year study in SJTPO's FY 2022 Unified Planning Work Program (www.sjtpo.org/UPWP). At their January 24, 2022 meeting, the SJTPO Policy Board is considering an Amendment to the FY 2022 UPWP to reallocate funds within and add a new task to the Technical Program (Task 22/404 Air Quality Post-Processor Development). Technical proposals must be prepared and submitted in accordance with the goals, requirements, format, and guidelines presented in this RFP document.

The SJTPO is the designated Metropolitan Planning Organization for Atlantic, Cape May, Cumberland, and Salem Counties. As such, the SJTPO has responsibility or oversight for all federally funded surface transportation planning activities in the region.

E. Contracting

The contract with SJTPO will be executed via the South Jersey Transportation Authority (SJTA), the administrative host of the SJTPO. All provisions and requirements of the SJTA pertaining to contractual matters will be in effect. This project is funded by the Federal Highway Administration of the United States Department of Transportation. Accordingly, the selected consultant will be required to comply with all applicable federal procurement laws, regulations and contracting provisions required by the federal funding authority. Additionally, all state

regulations and provisions of the SJTPO's prime contract with the NJDOT, the prime recipient of the federal grant, will be passed on to the consultant. All proposals must include a signed Cover Letter that indicates review of SJTPO Standard Contract Agreement boilerplate and either indicate acceptance of or enumerates proposed changes thereto. The SJTPO Standard Contract Agreement boilerplate is available for review on the SJTPO website at https://www.sjtpo.org/wp-content/uploads/2021/02/Subcontract-Agreement-BOILERPLATE_Revised-12.21.20.pdf.

II. SCOPE OF WORK

Proposals should explicitly address the full scope of the project as described within this section. SJTPO cannot ask firms for clarification if questions remain prior to scoring. Proposals, however, should detail any concerns which impact successful completion of the project as described herein or if additional innovations or alternative tasks are recommended to enhance the intended project scope.

A. Background

Transportation Conformity is required whenever the Regional Transportation Plan (RTP) and/or Transportation Improvement Program (TIP) is updated and is demonstrated through a regional emissions analysis. This process involves the running of a sophisticated travel demand model, followed by an air quality emissions model with the result being projected emissions generated from all future transportation projects in the RTP and TIP. Emissions from these projects must conform to emissions budgets in the State Air Quality Plan, known as the State Implementation Plan (SIP). The air quality emissions model is developed by the US Environmental Protection Agency and is known as MOVES (Motor Vehicle Emissions Simulator).¹ However, before the output from the travel demand model can be input into the MOVES emissions model, it must be reformatted in such a way that MOVES will be able to read the files.

SJTPO currently conducts all necessary travel demand model work using the SJTDM in-house. Loaded networks are outputted by the SJTDM for a summer weekday model run under various scenario years.

The major inputs to the SJTDM include:

- Demographics
- The existing and committed highway and transit network
- Various other files such as lifecycle files, casino zonal characteristics files, toll data and rail fare data which feeds into the South Jersey Travel Demand Model

The main outputs from the travel demand model that would be fed into the MOVES 3 emissions model, using the inventory approach, include:

- Vehicle miles traveled (VMT) by Source and Vehicle Type
- Speed Distribution
- Road Type Distribution

¹ For more information on MOVES, see: <https://www.epa.gov/moves>

To link the outputs of the SJTDM to latest version of MOVES, SJTPO currently makes use of a commercial proprietary processor, which requires reoccurring consultant support. A consultant is currently used to develop inputs into MOVES and prepare emission estimates for two pollutants, volatile organic compounds (VOCs) and oxides of nitrogen (NOx) for various scenario years. These are the two precursors to ozone, the criteria pollutant for which the SJTPO is in nonattainment.

As part of this technical effort, SJTPO is seeking support to develop a post-processor that would effectively link the outputs of the SJTDM, SJTPO's CUBE²-based travel demand model, and process them into a format that can be readily input into the latest version of MOVES (currently MOVES 3). SJTPO runs the MOVES model using the inventory approach, which is consistent with how the New Jersey Department of Environmental Protection (NJDEP) runs MOVES, as opposed to the emissions rate approach. While development of the post-processor is the main output of this solicitation, the contractor should at least be familiar with travel demand models and EPA's MOVES emissions model.

Using a non-proprietary, open-source post-processor, SJTPO can transition to conduct all air quality related work in-house without reoccurring consultant support.

B. Content

Task 1. Coordination

Regular communication shall take place between the consultant's project manager and the SJTPO project manager. The firm will be responsible to document all communications and deliver them to SJTPO. It should be assumed that all meetings shall take place virtually.

The consultant shall provide brief status updates every two weeks to SJTPO via email. The status updates should describe tasks completed in the past two weeks, upcoming tasks for the next four weeks, any delays that affect the schedule of the project, and any assistance that will be needed from SJTPO or other stakeholders in the coming weeks. Updates should also note the status of DBE/ESBE firm in achieving its goal and highlight any concerns about achieving that goal as soon as it becomes apparent.

The consultant is to produce and update, as needed, a detailed project schedule, including the expected meeting dates, task completion dates, and other tasks and milestones. All work is anticipated to be completed by Friday, December 30, 2022, as stated in section D. Schedule.

Deliverable 1a	Bi-weekly emails: The consultant will provide an email to SJTPO's project manager on a bi-weekly basis as described above.
Deliverable 1b	Project Schedule: Including expected meeting dates, task completion dates, and bi-weekly conference call schedule, to be updated as needed.

² Bentley develops and maintains CUBE; see [Bentley](#)

Task 2: Development of a Post-Processor

The consultant is to develop a post-processor that will link outputs from the SJTDM to the latest version of MOVES, which is currently MOVES 3. The post-processor must be run using non-proprietary, or open-source software. The development of any post-processor must utilize the inventory approach, consistent with how the NJDEP runs MOVES. SJTPO is not interested in running MOVES using the emissions rate approach.

The post-processor must adjust the model's base year vehicle-miles traveled (VMT) to match that reported by the NJDOT Highway Performance Monitoring System (HPMS). The HPMS reports VMT by county and by roadway functional classification. HPMS adjustments are required for the conformity process. Ideally, the entire process of running the travel demand model through the entire model chain to generate emissions outputs would be one seamless operation that could be run from the CUBE Application Manager with minimal user intervention.

The post-processor should be versatile enough to run a multitude of different scenarios. The consultant shall run a minimum of two (2) scenarios, outside of those completed as part of Transportation Conformity. While the SJTPO region is only in nonattainment for ozone, the post processor should also work with more than just the NOx and VOC pollutants, the two ozone precursors. SJTPO may want to generate a scenario generating Carbon Dioxide (CO₂) equivalents for a future greenhouse gas emissions analysis. The two scenarios shall be determined in consultation with SJTPO staff. Example scenarios could include running 2030 CO₂ equivalent emissions for an average summer weekday or a 2050 Ozone emissions scenario for an average fall weekday.

Deliverable 2a	Post-Processor Source Code: The consultant must deliver a DVD or file transfer containing complete source code of Post Processor.
Deliverable 2b	Post-Processor Manual: The consultant must deliver a manual demonstrating how the post-processor works and how to run for various scenarios.

Task 3: Training

The consultant shall be responsible for training SJTPO staff to use the newly developed post-processor and be able to run the post-processor under a multitude of scenarios, although the consultant is only responsible for duplicating the results of the most recent Transportation Conformity analysis. This instruction also includes ensuring the user's understanding of the script, understanding how to troubleshoot and/or debug the program if the program crashes, and the process can be revised for various scenarios.

Deliverable 3a	Virtual Training: The consultant shall provide a minimum of four (4) hours of training to ensure SJTPO staff is knowledgeable and comfortable with running the newly developed post-processor. This may also include reviewing common errors (or reasons for program crashes) the users may encounter, and how the user can debug these errors.
Deliverable 3b	Post-Processor Manual: The consultant must prepare a user-manual describing how the post-processor works and how to run various scenarios. Both a hard and digital copy should be provided.

Task 4: Model Test Runs

Utilizing the newly developed post-processor, the consultant shall complete test runs. The purpose of these test runs is to ensure that the emissions results of the latest [Transportation Conformity](#) analysis completed for the RTP 2050 and FFY 2022-2031 TIP can be replicated. SJTPO staff will run the post-processor/MOVES emissions model chain in parallel with the consultant.

Deliverable 4a	Model Test Runs: The consultant shall deliver the results of the test runs using the newly developed post-processor.
Deliverable 4b	Technical Memorandum: The consultant must prepare a brief technical memorandum summarizing results of test run using the newly developed post-processor and verifying consistency with results of latest transportation conformity analysis.

C. Schedule

We anticipate a Notice to Proceed in early April, shortly after action is taken by the SJTPO Policy Board at this meeting on March 28, 2022. The entire project must be completed by Friday, December 30, 2022.

III. CONSULTANT SELECTION

SJTPO's consultant selection is a quality-driven selection process. This is based primarily on an assessment of the technical qualifications of responding firms. However, as a project that does not relate to a direct Planning or Engineering element, we have added consideration for value and cost to ensure that public dollars are being utilized in the wisest manner possible. A review committee will evaluate each proposal and may recommend firms to present additional information and appear for interviews; or the proposal may be the sole basis for the selection.

Upon selection, SJTPO will negotiate a final price with the selected firm. Negotiations and award of the contract will be to the firms that provide the most advantageous proposals. If we cannot negotiate

an acceptable contract with the selected firm, negotiations will be terminated and SJTPO will initiate discussions with the second ranked firm.

LATE PROPOSALS WILL NOT BE EVALUATED.

The submission should be stapled or bound with no loose pages. The following criteria have been established to guide the evaluation of each consultant proposal with each criterion weighted as indicated below.

A. Technical Approach (Criterion weight: 40 percent)

1. Demonstrate a clear understanding of the effort and products required.
2. Explicit consideration of the features listed in Section II, *Scope of Work*.
3. Innovations or efficiencies to be used in completing the project with descriptions of how they add value to the project.
4. Demonstrate an ability to perform needed tasks and meet stated completion date.
5. Quality, clarity, thoroughness in addressing required tasks and submission guidelines.
6. Demonstrate the ability to complete project within the schedule stated in this document.

B. Value Given Stated Cost (Criterion weight: 20 percent)

1. Thoroughly addresses the full scope of the project as described within the RFP and includes cost.
2. Demonstrates a reasonable cost, particularly when evaluated against all of the elements included in the technical scope, demonstrating a great overall value to SJTPO.
3. Innovations proposed that add value for SJTPO or add efficiencies to the project can enhance this evaluation.

C. Firm/Staff Qualifications (Criterion weight: 30 percent)

1. Demonstrate successful experience of the firm or team (particularly recent) on similar projects.
2. Demonstrate expertise in specialized areas required for this project.
3. Firm(s) references submitted with proposal.
4. Availability of resources needed to successfully complete the project.
5. Staffing Plan demonstrates staff (particularly Project Manager) ability to successfully complete project.
6. Resumes demonstrate staff (particularly Project Manager) experience successfully implementing similar projects.

D. DBE/ESBE Utilization (Criterion weight: 10 percent)

1. DBE/ESBE firm must be explicitly identified. If a specific DBE/ESBE firm is not identified, a zero percent DBE/ESBE commitment will be assumed.
2. Staffing Plan clearly states the hours and specific tasks of DBE/ESBE staff as well as dollar figures or each and percent of total budget to be dedicated to DBE/ESBE firm(s).
3. Technical Proposals should explicitly indicate the type of work to be completed by the DBE/ESBE firm(s). This information will be used to assess the quality of work to be completed by the DBE/ESBE firm(s).

4. If a proposer is unable to secure a DBE/ESBE firm to meet the DBE/ESBE goal, the proposer would need to document in their proposal that a good faith effort was made to meet the goal. See Section IV for definition of DBE/ESBE firms more information about documenting a good faith effort. SJTPO will, at its discretion, award points to firms that meet/exceed the DBE goal or satisfactorily document in their proposal that a good faith effort was made in meeting the DBE goal.

Federal and state goals for DBE/ESBE participation must be addressed explicitly in the proposal. This is satisfied by stating the percentage of total project cost devoted to DBE/ESBE firm involvement in the Technical Proposal. See Section IV for definition of DBE/ESBE firms. Note: SJTPO utilizes the most recent NJDOT federally approved DBE/ESBE goal (effective 10/1/2019 through 9/30/2022), which is 13.23 percent.

The highest-ranking firms may be invited, at the option of SJTPO, to an interview to present relevant details of their proposals and introduce key staff.

The cost proposals must include a price and level of effort for the Scope of Work. All other charges such as fringe benefit, overhead, profit, etc., must be identified, yielding a total project cost. Proposals and costs should address the full scope of the project as described within the RFP. Proposals, however, should detail any concerns which impact successful completion of the project as described herein or if additional innovations or alternative tasks are recommended to enhance the intended project scope. Cost proposals must include all tasks or alternatives discussed within the technical proposal. If applicable, multiple costs scenarios are acceptable.

IV. DISADVANTAGED BUSINESS ENTERPRISE (DBE) AND EMERGING SMALL BUSINESS PARTICIPATION (ESBE)

A. General

Regulations of the Department of Transportation relative to Non-Discrimination in federally assisted projects of the Department of Transportation (49 CFR Part 21), is made part of the Agreement. In order to ensure The State of New Jersey Department of Transportation (NJDOT) achieves its federally mandated statewide DBE goal, SJTPO encourages the participation of Disadvantaged Business Enterprise (DBE) or Emerging Small Business Enterprise (ESBE), as defined below, in the performance of consultant contracts financed in whole or in part with federal funds. The sub-recipient shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts.

1. **Disadvantaged Business Enterprise (DBE)** is defined in 49 CFR Part 26, as a small business concern (from Section 3 of the Small Business Act), which is:
 - a. At least 51 percent owned by one or more socially and economically disadvantaged' individuals, or in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more 'socially and economically disadvantaged' individuals, and
 - b. Whose management and daily business operations are controlled by one or more of the 'socially and economically disadvantaged' individuals who own it.

'Socially and economically disadvantaged' is defined as individuals who are citizens of the United States (or lawfully permanent residents) and who are: "Black Americans," "Hispanic Americans", "Native Americans," "Asian-Pacific Americans", "Asian-Indian Americans", "Women" (regardless of race, ethnicity, or origin); or "Other" disadvantaged pursuant to Section 8 of the Small Business Act).

2. **Emerging Small Business Enterprise (ESBE)** is defined as a firm that has met the following criteria and obtained small business certification as an ESBE by The State of New Jersey Department of Transportation:
 - a. A firm must meet the criteria for a small business as defined by the Small Business Administration in 13 CFR Part 121, which includes annual receipts from all revenues, including affiliate receipts which equates to the annual arithmetic average over the last 3 completed tax years, or by the number of employees.
 - b. The small business must be owned by individuals who do not exceed the personal net worth criteria established in 49 CFR Part 26, which is \$750,000. All appropriately certified DBEs fall into this definition due to their size.

B. Policy

The CONTRACTOR agrees that DBE/ESBE firms shall have the maximum opportunity to participate in the performance of contracts and subcontracts financed in whole or in part with federal funds provided under this Agreement, the CONTRACTOR and its subcontractors shall not discriminate on the basis of race, color, national origin or sex in the award and performance of USDOT-assisted contracts in accordance with 49 CFR Part 21. DBE requirements of 49 CFR Part 23 applies to this agreement. The SJTPO strongly encourages the use of DBE/ESBEs in all of its contractual efforts.

C. Certified DBE/ESBE Firms

A list of certified ESBE firms is compiled and is effective for contracts on a per calendar year basis. Current guidance on DBE/ESBE is available on the website of the New Jersey Department of Transportation (www.state.nj.us/transportation/business/civilrights). Firms who wish to be considered for DBE/ESBE certification are encouraged to contact the NJDOT Office of Civil Rights directly for information on the certification process. Once a firm is certified, the federal portion of the dollar value of the contract or subcontract awarded to the DBE/ESBE is generally counted toward the applicable DBE/ESBE goal. If state matching and/or non-matching funds are also awarded to a DBE/ESBE, the total dollar value of the DBE/ESBE contract or subcontract may also be counted toward the applicable DBE/ESBE goal.

There are only two lists that count towards meeting this DBE/ESBE goal. Firms should check these sites PRIOR TO submitting a proposal.

1. New Jersey ESBE: <http://www.nj.gov/transportation/business/civilrights/pdf/ESBEDirectory.pdf>.
2. New Jersey DBE: <https://njucp.dbesystem.com/>.

There are some certifications that have similar requirements, such as MBE, SBE, or any similar certifications in another state – THESE DO NOT COUNT for this goal.

D. Consultant Documentation

If applicable, the Consultant must demonstrate sufficient reasonable efforts to meet the DBE/ESBE contract goals. Additionally, SJTPO has a long-standing commitment to maximize business opportunities available to DBE/ESBE firms. The consultant's contract is subject to all federal, state, and local laws, rules, and regulations, including but not limited to, non-discrimination in employment and affirmative action for equal employment opportunity. The consultant's contract obligates the consultant to aggressively pursue DBE/ESBEs for participation in the performance of contracts and subcontracts financed in whole or in part with federal funds. The consultant cannot discriminate on the basis of race, color, national origin, or sex in the award and performance of federally assisted contracts. The consultant contract specifies the DBE/ESBE goal and the DBE/ESBE participation rate for that contract, if applicable. The prime consultant contract must document, in writing, all of the steps that led to any selection of the DBE/ESBE firm(s). Prior to the award of a consultant contract, the consultant must demonstrate sufficient reasonable efforts to utilize DBE/ESBE firms. SJTPO utilizes the most recent NJDOT federally approved DBE/ESBE goal (effective 10/1/2019 through 9/30/2022), which is 13.23 percent.

If, at any time a firm intends to subcontract or modify any portion of the work already under contract or intends to purchase material or lease equipment not contemplated during the original preparation of the cost proposal, the firm must notify SJTPO in writing. If, as a result of any subcontract, modification, purchase order, or lease, the actual DBE/ESBE or participation rate for the consultant's contract is in danger of falling below the agreed upon DBE/ESBE participation, then a request must be made for a DBE/ESBE Goal Exemption Modification through SJTPO.

E. Good Faith Efforts

If the contract goal is not met by the apparent successful firm, evidence of good faith efforts must be presented to the SJTPO for consideration.

To demonstrate sufficient reasonable efforts to meet the DBE or ESBE contract goals, a respondent shall document the steps it has taken to obtain DBE or ESBE participation. Examples of sufficient effort include, but are not limited to, the following efforts:

1. Written notification to DBEs or ESBEs that their interest in the contract is solicited.
2. Efforts made to select portions of work proposed to be performed by DBEs or ESBEs in order to increase the likelihood of achieving the stated goal.
3. Efforts made to negotiate with DBEs or ESBEs for specific proposals including at a minimum:
 - a. The names, addresses and telephone numbers of DBEs or ESBEs that were contacted;
 - b. A description of the information provided to DBEs or ESBEs regarding the scope of work for the specified solicitation; and
 - c. A statement of why additional agreements with DBEs or ESBEs were not reached.

4. Information regarding each DBE or ESBE the contractor contacted and rejected as unqualified and the reasons for the contractor's conclusion.
5. Efforts made to assist the DBE or ESBE in obtaining bonding or insurance required by the contractor.

More information on documenting a good faith effort can be found here:

www.transportation.gov/osdbu/disadvantaged-business-enterprise/final-rule-section-26-53

V. EQUAL EMPLOYMENT OPPORTUNITY PROVISION

- A. SJTPO in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. § 2000d to 2000d-4) and the Regulations, hereby notifies all bidders that it will affirmatively ensure that any contract entered into pursuant to this advertisement, disadvantaged business enterprises will be afforded full and fair opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award.
- B. All potential Consultants must demonstrate a commitment to the effective implementation of an affirmative action plan or policy on equal employment opportunity. The potential Consultant must ensure equal employment opportunity to all persons and not discriminate against any employee or applicant for employment opportunity because of race, color, religion, sex, national origin, physical disability, mental disorder, ancestry, marital status, criminal record, or political beliefs. The Consultant must uphold and operate in compliance with Executive Order 11246 and as amended in Executive Order 11375, Titles VI and VII of the Civil Rights Act of 1964, the Equal Employment Opportunity Act of 1972, and the Fair Employment Practices Act.
- C. In response to this Request for Qualifications/Request for Proposals, the Consultant should furnish documents disclosing Affirmative Action evidence, including a Letter of Federal Approval or Letter of Approval of EEO/AA Program provided by NJDOT Division of Civil Rights. If an educational institution/research partner does not have the approval letter, they must submit their Affirmative Action Plan to the NJDOT's Division of Civil Rights for approval.

VI. INSURANCE REQUIREMENTS

- A. The Consultant shall carry and maintain in full force and effect for the duration of this contract, and any supplement thereto, appropriate insurance. The Consultant shall submit to the SJTPO, a Certificate of Insurance indicating the existence of the coverage required. Policies shall be issued by an insurance company authorized to do business in the State of New Jersey; and approved by the SJTA.
- B. Insurance similar to that required by the Consultant shall be provided by or on behalf of all subconsultants to cover its operation(s) performed under this contract, and include in all subcontracts. The contractor or subcontractor agrees to revise any of its testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the State of New Jersey and as established by applicable Federal law and applicable Federal court decisions;

The contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and layoff to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and conform with the applicable employment goals, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions; and

The contractor and its subcontractors shall furnish such reports or other documents to the Affirmative Action Office as may be requested by the office from time to time in order to carry out the purpose of these regulations, and public agencies shall furnish such information as may be requested by the Affirmative Action Office for conducting a compliance investigation pursuant to **Subchapter 10 of the Administrative Code (NJAC 17:27)**.

Dear Business Representative:

Recently enacted State law (Public Law 2001, c.134) requires all contractors and subcontractors with State, county and municipal agencies to provide proof of their registration with the Department of the Treasury, Division of Revenue. The law became effective September 1, 2001.

Our records indicate that you are currently registered with the Division of Revenue, and accordingly, we have attached a Proof of Registration Certificate for your use. If you are currently under contract or entering into a contract with a State, county or local agency, you must provide a copy of the certificate to the contracting agency.

Please note that the law sets forth penalties for non-compliance with the provisions above. See N.J.S.A. 54:52-20.

Finally, please note that the new law amended Section 92 of the Casino Control Act, which deals with the casino service industry.

Should you have any questions or require more information about the attached certificate, or are involved with the casino service industry, call (609) 292-1730.

Thank you in advance for your consideration and cooperation.

Sincerely,

Patricia A. Chiacchio
