Join by phone:

+1 (866) 899-4679 (toll-free)

+1 (571) 317-3116

Access code: 957-278-509

You will learn:

At the roundtable, there will be high-level officials from the New Jersey Department of Transportation (NJDOT), the New Jersey Office of Emergency Management (NJ OEM), and other emergency management officials to discuss and explain the emergency management process in detail, with a specific focus on how transportation planners fit in and how those two functions can be better integrated. In addition, the New Jersey Statewide Emergency Operations Plan, including how incidents and events are handled at the statewide level and the relationship with other levels of government, will be discussed. There will also be a general discussion about emergency management and how Metropolitan Planning Organizations (MPOs) and other planning officials can get more involved in the process.
