

REGIONAL VULNERABILITY FRAMEWORK

What is the Regional Vulnerability Framework Project?

The Regional Vulnerability Framework Project is a systemic review of the South Jersey Transportation Planning Organization's (SJTPO) Region to identify weaknesses and vulnerabilities to climate trends in its transportation infrastructure. This effort will lay the groundwork for future vulnerability assessments and provide quantifiable value to support resiliency efforts for transportation infrastructure in the region.

What will be the outcome of the Regional Vulnerability Framework?

This project will identify gaps in existing analysis, create a critical asset inventory, and use existing guidance on climate projections. The result will be an initial risk assessment based on existing data and recommendations for next steps in the region to enhance resilience across the transportation network.

[Click here](#) to join the Technical Advisory Committee (TAC) meeting on Thursday, February 22, 2024 at 1:00 pm OR attend in person at SJTPO's office. More details below.

HOW CAN I GET INVOLVED?

Join us for the hybrid TAC meeting on Thursday, February 22, 2024 at 1:00 pm to discuss initial findings and to hear your thoughts and ideas on the Regional Vulnerability Framework.

For more information, contact Brittany Dremluk at (e) brittany.dremluk@mbakerintl.com or (p) 609-807-9556.

JOIN US FOR THE TAC WORKSHOP

What?

Join us to discuss our findings and voice your thoughts and ideas.

When?

Thursday, February 22, 2024 from 1:00 - 2:30 pm.

Where?
